FACTS ABOUT THE Great Majestic Range.

It is the only range in the world made of Malleable and Charcoal Iron.

It has, beyond any question of a doubt, the largest and best reservoir.

It uses about half the fuel used on other ranges, and does better work by far.

The Majestic All Copper Nickered Reservoir heats the water quicker and hotter than any other. It is the only reservoir with a removable frame.

The Charcoal Iron Body of the Great Majestic Range lasts three times as long as a steel body. Being made of non-breakable material, there is practically no expense for repairing the Majestic.

As for baking, it is perfection; not only for a few months, but for all time to come.

A Great Majestic Range lasts three times as long as a cheap range, but it doesn't cost three times as much.

PROOF—We don't ask you to take our word for any of the above statements, but if you will call at our store, a man from the factory, where Majestic Ranges are made, will prove to your satisfaction that these are absolute facts, and will show you many more reasons why the Great Majestic Range is absolutely the best that money can buy.
